

## PRODUCTS

### ↑ Kährs

US company Dropbox has chosen wood flooring from Kährs Grande Collection for its new headquarters. The rustic wood floor – Oak Casa – has been installed throughout. The simple interior, featuring pale walls, patterned retro-style feature walls and contemporary timber fittings and furnishings, is complemented by Kährs Oak Casa flooring, with its warm tone and lively graining. Kährs Oak Casa is designed in Sweden from sustainable European Oak. It has a one-strip plank format, complemented by a bevelled edge. The board's hand-scraped finish creates a tactile surface, while Kährs durable Nature Oil prefinish promotes easy care. [kahrs.com](http://kahrs.com)

### ↓ NIVA

CUT design by Francesco Rota for Lapalma Italy. The range encompasses a wide variety of forms and personalities and offers multiple modes of use. The outdoor version comes unadorned, while the varied interior models come with a simple seat cushion, facia upholstery or in a soft and inviting fully upholstered version in one of two colours. ### ↑ Tvåfota Design

Designed by Ida Sjöberg, Rasmus Mården and Stina Löfgren, the Döden lamp uses a two-dimensional board of MDF and a laser cutter to produce a three-dimensional lampshade. The lamp is based on the skeletal shape of a diamond, as if it were a drawing. The lampshade creates striking shadow effects on walls and ceilings. The Döden lamp is designed to display all of the illumination from the bulb. The parts are laser cut in Malmö, Sweden, and the remainder is made by hand by Ida and Stina, the founders of Tvåfota Design. [tvafotadesign.se](http://tvafotadesign.se)

### ↓ Milliken

Milliken introduces a fresh and exciting Luxury Vinyl Tile (LVT) range. Milliken's new LVT provides a remarkably durable and resilient floor covering, suitable for heavy traffic environments. The high-performance LVT collection provides a vast range of design possibilities, with 109 options in wood, stone, and abstract textures. Milliken has devised a simple colour reference system to enable easy coordination with its modular carpets. The collection provides excellent stain and abrasion resistance and is supplied in six different size options, all providing a sustainable solution for hard-surface flooring.
