Jey
Francesco Rota / LaPalma
Price on request

These versatile tables have been designed by LaPalma's art director Francesco Rota. Easily transportable with the bent handle feature, 'Jey' is comparable to chess pieces, arriving in a pure monochrome palette. Rota also plays with shape in the design: the solid bases are all cylinder, but the laminate tops come in a choice of different geometrical forms, lending itself to the Italian brand's modern design aesthetic.
