BEST UFO BEAMS

Stranger things are happening as alien light forms pepper the skies

Jan Kath's 'Magic View' rug asks us to raise our heads and take in a patch of sky framed by the towering rainforest. Suitably awed, we lit a path to our own fabled clearing. 'White Noise', a suspension LED lamp by Diesel Living and Foscarini, adds its own star-spangled celestial dome, while an inner dome creates both diffuse divine light and a UFO-ish single beam. Pinch Design's 'Nim Natural' table, apparently unplugged from the lunar surface, casts a distinct moon shadow. And, in a special nod to the late, great Cédric Ragot, we've included his 'Full Moon' lamp to add a more lunar luminescence. ✪
